## SET Online

SET Online is a powerful **online event management system** for any type of event, including tournaments or seminars. In addition to user, club, nation, coach, referee and entry management, SET Online provides easy communication between users and organizers through forums, picture galleries, maps, news feeds, route plans and an array of other features. SET Online can also serve as an additional platform to promote events. <http://www.sportdata.org>

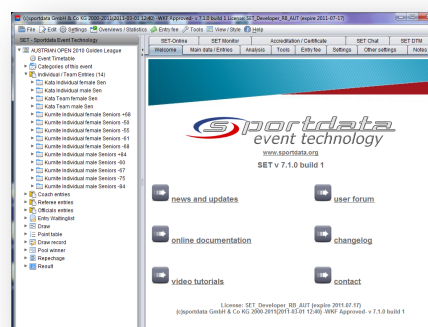

## SET Include

SET Include can manage online registrations on third party websites. All features from SET Online such as user, club, nation, coach, referee and entry management, are available on SET Include. Simply include SET-INCLUDE into your website. <http://www.sportdata.org/set-include/>.

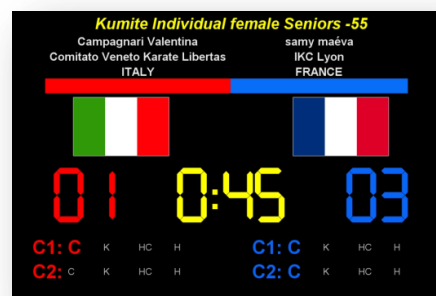

## SET

SET software is a powerful **tournament management system**. SET supports all phases of the tournament management process: event creation, registration, draws, entry fee management, reports, statistics, etc. SET can directly connect to and use the SET Online database. SET supports **WKF**, **IPPON**, **NIHON** and **SANBON SHOBU** rules.

## SET Point Panel

Forget about the complicated and expensive conventional karate scoreboards. SET Point Panel implements the actual WKF (World Karate Federation) rules and furthermore it provides additional features, like adjustment of the screen size, logging of all actions and many more features. SET Point Panel is also available for IPPON, NIHON and SANBON SHOBU systems.

## SET AccVal

SET AccVal provides easy and configurable generation of **accreditation cards** and their **validation**. The validation is done by reading QR codes from the cards with suitable devices (e. g. mobile phone) and displaying information via a web browser.

## SET Live Activity Blog

See all actions (matches, winners, points, etc.) during events on sportdata.org live on the LIVE ACTIVITY BLOG. This blog is available on **FACEBOOK** and will soon be on all other popular social network communities and blogs.

## SET DTM – Dynamic Time Management

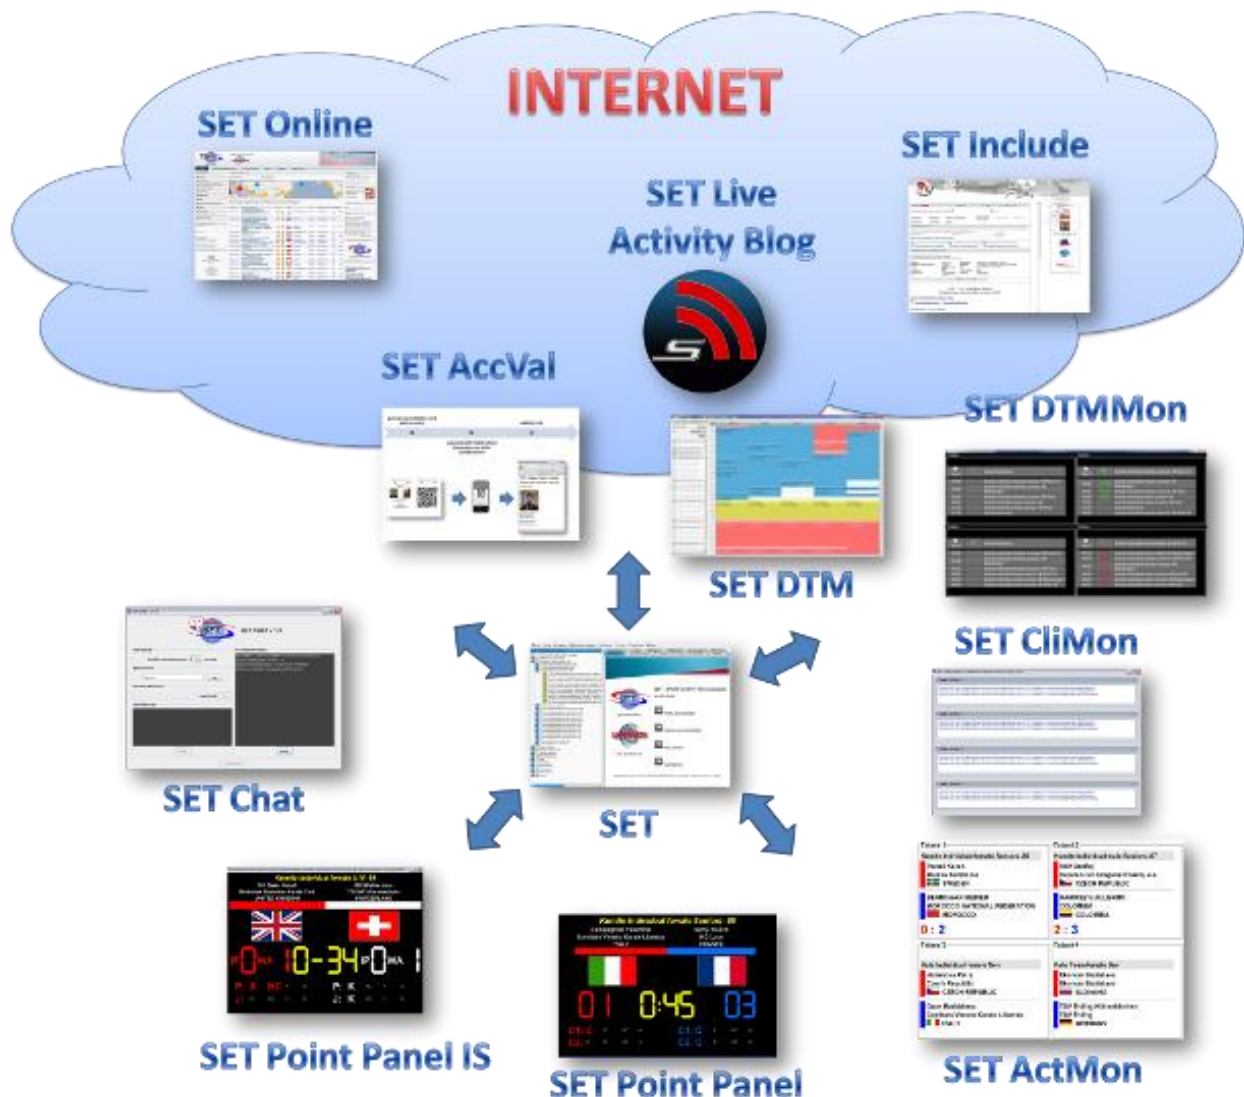

SET DTM provides scheduling and management of all event activities, categories and all other time consuming tasks. SET DTM simplifies timetable and schedule generation by automatically calculating the duration of event activities. Moreover, SET DTM provides time management features to control and observe time flow. SET DTM provides real time information about early, on time and delayed starts.

## SET Software Application Framework

Use individual applications or all of them together for optimal interaction

Any SET application can be used **stand-alone** but when used together, all SET applications comprise a **framework** for optimal event management. All SET applications can be integrated into one homogeneous system. Any phase of this process can be electronically managed to save time, resources, effort and cost for all parties.

# SET Online

More information: <http://www.sportdata.org/set>

The screenshot displays the SET Online website interface. At the top, the 'sportdata event technology' logo is on the left, and the 'WKF' (World Karate Federation) logo with 'APPROVED' text is on the right. A navigation bar includes links: Home, Veranstaltungskalender, Registrierung, Hilfe, Kontakt, Impressum, Referenzen, Partner, Tickets.

Below the navigation bar, there are logos for 'SET Online (All Events)', 'KARATE1 PREMIER LEAGUE', 'SET Online Australia', 'SET Online DKV', and 'SET Online SKF'.

The main content area is divided into several sections:

- HAUPTMENÜ**: Links to 'Veranstaltung - News', 'Sonstige News', 'AGB', 'Datenschutzerklärung', 'Preise und Lizenzen', 'Links', 'SET Online Plattformen', 'Statistik', and 'Verwalter Login'.
- ARCHIV**: Links to 'Veranstaltungs Archiv' and 'News Archiv'.
- TEAM/VEREIN LOGIN**: Fields for 'Username' and 'Passwort'.
- SCHNELLÜBERSICHT**: A search section with filters for 'Land' (alle), 'Typ' (Online Registrierung), and 'Nennung' (alle). It includes a 'Suchen' button and a world map icon.
- Suche nach Veranstaltung auf der Weltkarte:** A section with a world map icon.
- FREE INFO-EVENT SERVICE**: A section encouraging users to register as an event manager.
- Keep up to date:** Social media links for Facebook and Twitter.
- SPRACHE**: A language selection dropdown menu set to 'deutsch'.
- RANKING**: A section for event rankings.

The 'SCHNELLÜBERSICHT' section contains a table of events:

## SET Include

### Online registration integrated to your website

SET Include offers the opportunity to manage online registration on third party websites. All features from SET Online, namely, user, club, nation, coach, referee and entry management, forums, galleries and downloads, are available on SET Include. Simply include SET INCLUDE as an **IFrame** into a website. If necessary, all layouts can be **customized** easily to fit the design of any website.

<http://www.sportdata.org/set-include/>

## SET AccVal

### Accreditation and validation

SET Entry Control provides simple and configurable generation of **accreditation cards** and their **validation** by reading QR codes from the cards using suitable devices such as a mobile phone and displaying information via a web browser.

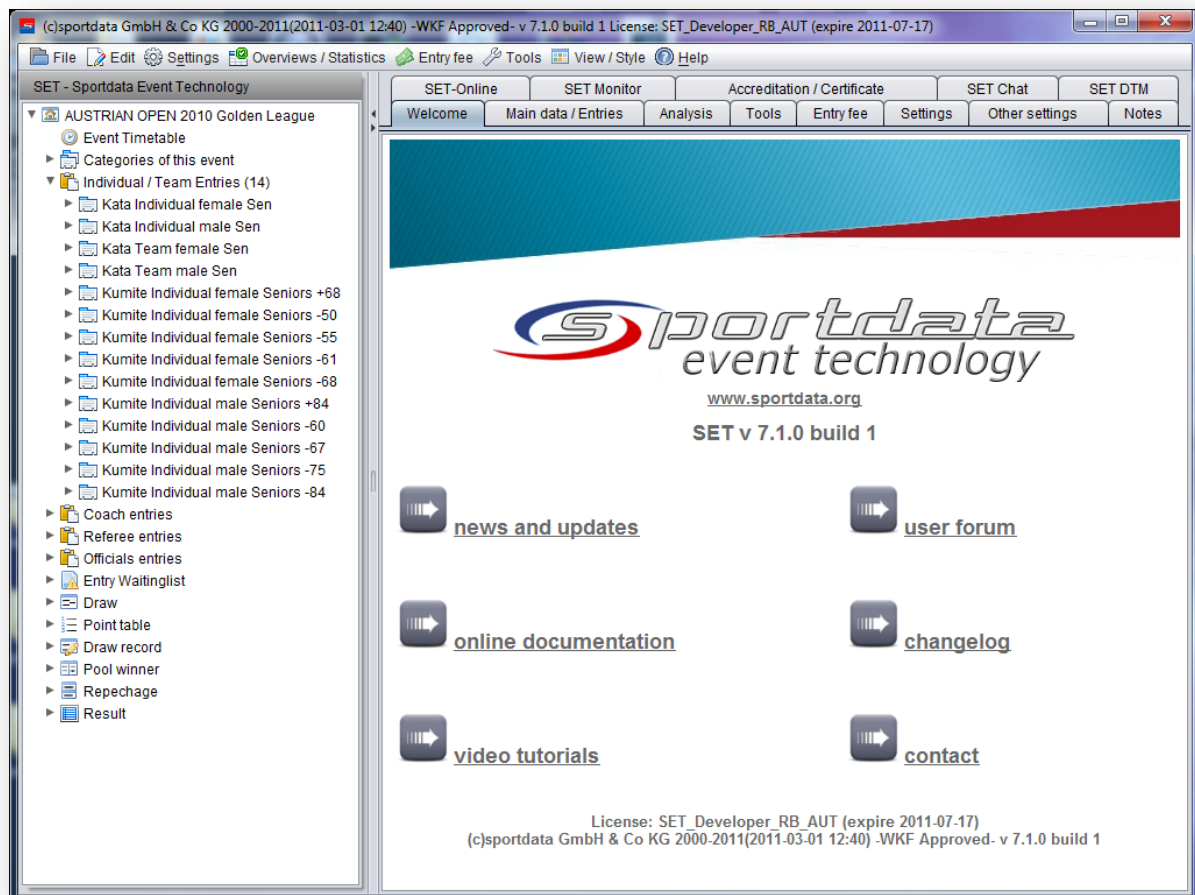

- ✓ Customize accreditation card layout in SET (event logo, sponsor logos, etc.)
- ✓ Generate accreditation cards with SET
- ✓ Scan cards using suitable mobile phones with free open-source scanner software
- ✓ Validate cards against available online information via browser

# SET

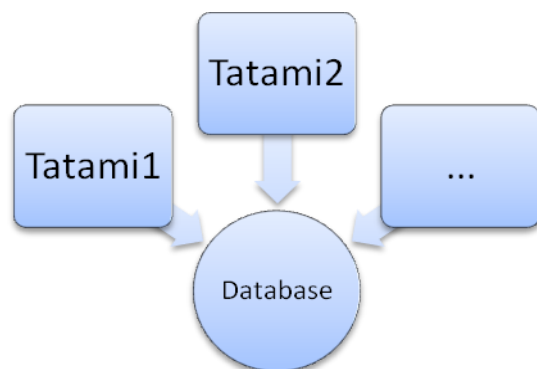

## The tournament management system

The SET software can electronically implement all activities associated with tournament management. SET supports **all phases of a tournament management process** including event creation, registration and entry fee management, draws, reports and statistics etc. SET supports **WKF, IPPON, NIHON and SANBON SHOBU** rules.

## Use SET directly on and across different tatamis

SET connects all tatamis with **one central database**. For that reason it is possible for many workstations to work on the same draws at the same time. This architecture also ensures the availability of data for all clients at any time. It is easy for the administration to overview and to **trace all activities** on the tatamis during the event. Because of the fully automated generation of the draws, repechage draws and result lists, you will no longer have to worry about time-consuming manual activities to create these outputs.

# Handling events and registrations

## Create and edit events

Rapid, simple and convenient steps to create new events. SET supports events with registration mode, day of event and year of event.

# Handling Draws

## Seed entries in categories

The concept of this feature is to ensure that seeded athletes meet as late as possible in the draw for each pool.

## Automatic generation of draws

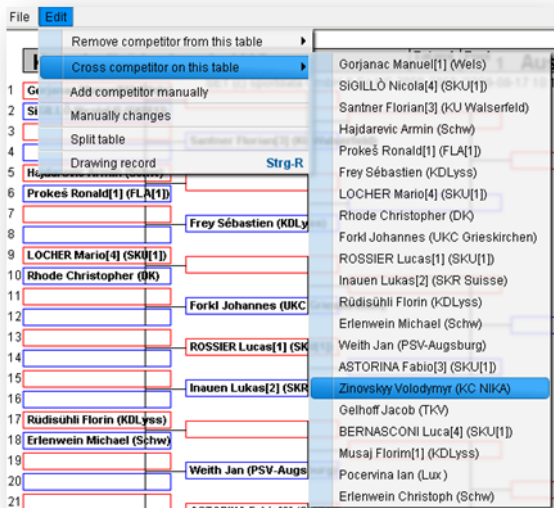

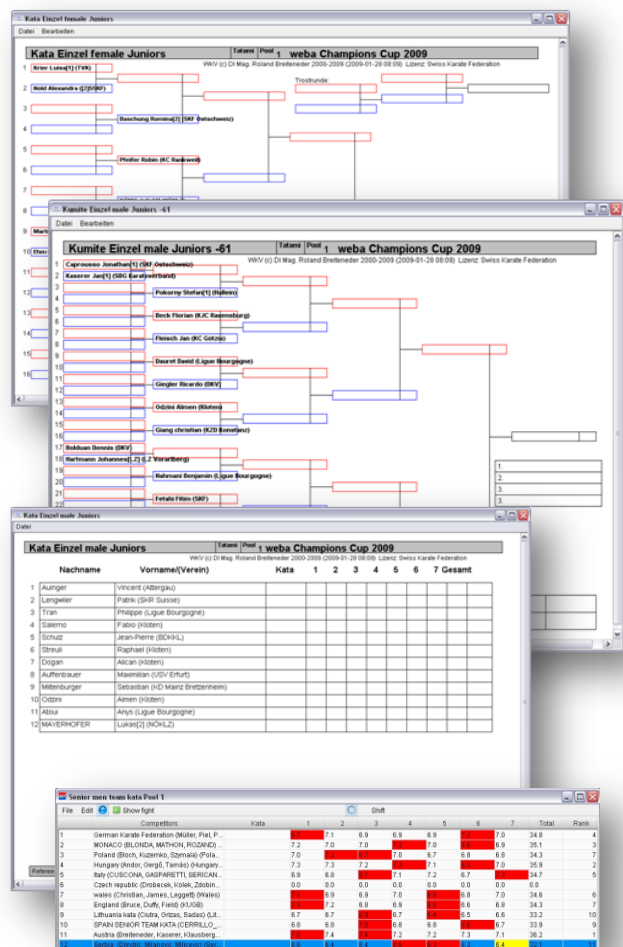

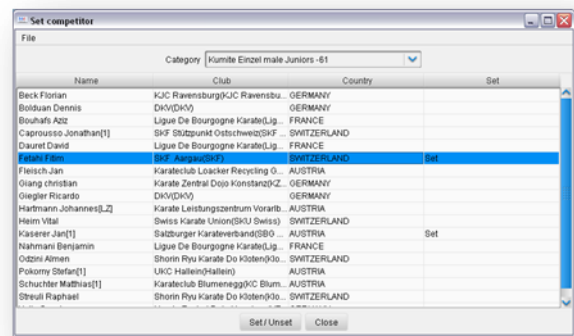

The number of entries in each category has no limit. Whether to use draws of 16 or 32 is automatically selected by the system.

Here are some possibilities regarding automatic generation of draws for:

- ✓ all categories
- ✓ all individual categories
- ✓ all team categories
- ✓ point lists

## Draw logic: random and ideal separation steps

- ✓ Random arrangement
- ✓ Ideal separation of entries from same club
- ✓ Ideal separation of entries from same country
- ✓ Separate seeded entries into different pools

## Modification of draws

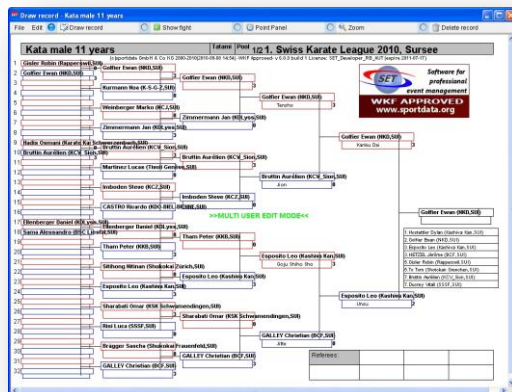

- ✓ Removal of entries directly from the draw
- ✓ Cross entries directly on the draw
- ✓ Move entries
- ✓ Insert new entries
- ✓ Split draws

# Directly onto the mat

## Directly record entries into draws

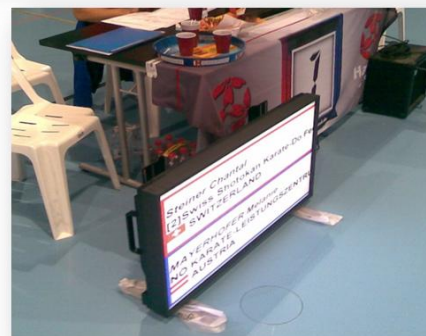

- ✓ Determine winner by simply dragging and dropping entries
- ✓ Simultaneously work on one draw at different stages
- ✓ Delete/cross records directly on draws
- ✓ Undo actions

Tatami 1

2	Kovacevic Jelena Croatian Karate Union CROATIA

## Display actual match or match in preparation

Any match can be displayed at the mat on a separate external monitor or TV screen with a mouse click.

## Display actual overview of activities on mats

Display actual overview activities of various mats on extra screens to facilitate simultaneous following the action on several mats.

## SET- Point Panel

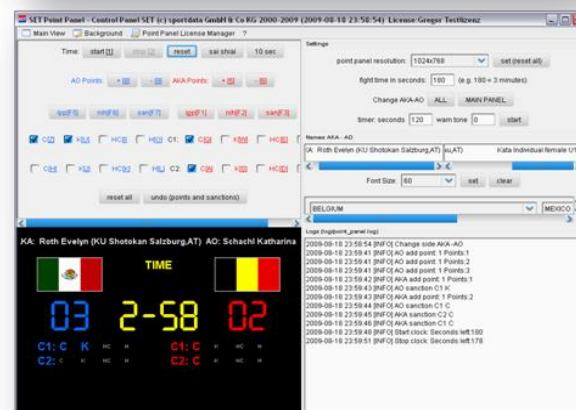

SET Point Panel can be directly accessed from the mat tables using a mouse click. Point Panel can display fully functional and simple scoreboards on an external monitor or TV screen on the mat.

The SET-Point Panel can be used **independently** from other SET software components as a stand-alone application. SET Point Panel is also available for **IPPON**, **NIHON** and **SANBON SHOBU** systems.

## Benefits of SET Point Panel

SET Point Panel implements the WKF rules and also provides additional features such as:

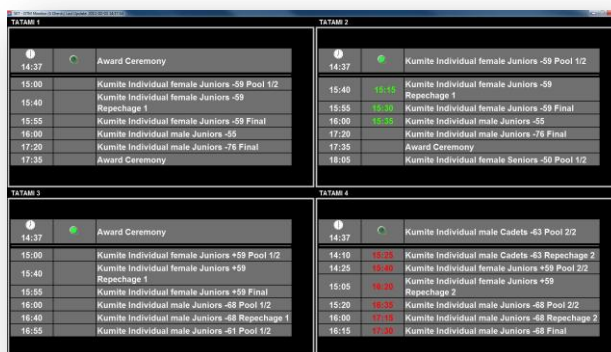

- ✓ Continuous adaptation of official WKF rules, enables current updates and support for rule changes
- ✓ Simple, convenient control via a control panel
- ✓ Adjustable resolution that adapts to monitor or television resolution
- ✓ All actions automatically logged on screen and into files
- ✓ Tracking and correcting tools
- ✓ Display any desired data such as names, clubs, nations, categories and much more

## SET DTM – Dynamic Time Management

SET DTM is a user-friendly management system that features rich time. SET DTM can schedule and manage all event activities, categories and other time consuming tasks. SET DTM simplifies the generation of timetables and schedules by automatically calculating durations of event activities.

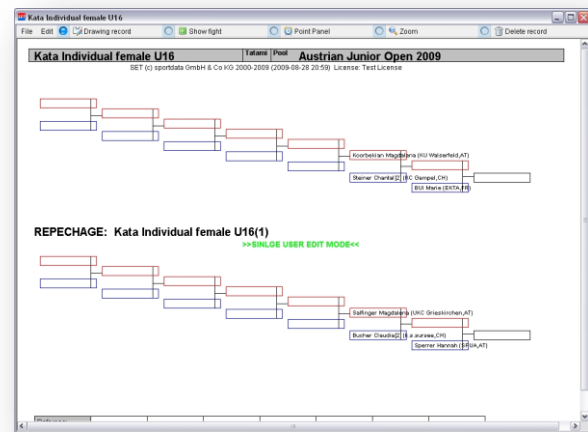

SET DTM also has time management features to control and observe time flow. SET DTM provides real time information about early, delayed, or on time starts.

## Automatically generated repechage

Athletes in repechage are automatically generated from original draw results.

Functions in repechage and normal draws are the same; that is, write match winner, match details and information, SET Point Panel, and an undo feature.

## Automatically generate results and statistics

### List of results

SET automatically computes all results when winners are directly recorded on various draws.

The system also provides a straightforward and convenient form for manually entering results.

SET can generate results lists for individual athletes, clubs, teams and countries.
